Term expires 1927
Term expires 1928

Report of the Board of Selectmen

To the Citizens of Easton:

The Town of Easton is still among the very few towns of the Commonwealth closing the year absolutely without debt; in fact, probably the only municipality of over five thousand inhabitants in the State which can boast of this condition. We believe that this policy of "pay-as-you-go" should be continued, even in case of unusual expenditures as in the year just closed.

In connection with this policy, it should be remembered that this Board, in considering possible activities and expenditures for the coming year, must not only have in mind the problem of the Department under which such expenditure may be made, but must also visualize the effect that the proposed action would have upon the entire financial situation.

To accomplish this, in preparing our budget, we have endeavored to lay aside the less important of these issues, in order that those of necessity may be taken care of and at the same time bring the tax rate to a point where those whose burden it is to meet these obligations may not be overburdened and that prospective new-comers will see the advantage of making this their home.

To carry out this program effectively, any proposed expenditure should be brought before this Board and considered by the Finance Committee before being submitted to the voters for action; otherwise, it is unfair to adversely criticize either of the Boards for the effect on taxation. We strongly urge that any proposal to spend sums, other than those having received such consideration, be rejected by the voters.

The Board is pleased to report that the budget as rendered to the Finance Committee and as appears in their report with their recommendations, is approximately twenty-five thousand dollars (\$25,000) lower than the total appropriation for these Departments last year. This has been accomplished without sacrifice in any Department, mainly due to the fact that large sums were voted last year for unusual expenditures.

It will be necessary to duplicate these expenses this year, and we see no need of any heavy appropriations for permanent equipment for many years.

TOWN OF EASTON

ROAD DEPARTMENT

This Department has rendered a report which will be found elsewhere.

It was our good fortune during 1925 to obtain nearly ten thousand dollars (\$10,000) from the Commonwealth, to be used in the construction of Highland Street, in place of the smaller amounts awarded in former years. To obtain this amount, the Town was required to spend an equal amount from its local appropriation.

It has been estimated that six thousand dollars (\$6,000) from each source in 1926 will complete this work, which fact, in addition to other savings that can be foreseen, enables us to recommend a reduction of five thousand dollars (\$5,000) in the Road Appropriation.

We also recommend that a larger portion of the funds be expended in and around the North Easton District, as compared with last year.

Streets which should be included in the program for needed repairs are Pine Street, Pond Street, Purchase Street, Union Street and the Bay road.

Several corners in the Town are in need of signs. This condition should be remedied, the general Road Appropriation, as recommended, being sufficient to include this work.

POLICE DEPARTMENT

It is no indictment against the integrity of the members of this Department to say that new and younger blood should be added thereto.

Changes in traffic conditions, that are too well known to need explanation, demand that a motor-cycle officer be on duty daily.

The only material increase in any appropriation asked for is for this purpose.

Negotiations with the District should be started at once, to the end that the Town assume control of this Department and the payment therefor.

No serious occasion has yet arisen to demonstrate the fact that the present obsolete system of divided authority is fatal to discipline and a business like conduct of the Department, but such a condition could easily occur at any time.

CENSUS

The census for 1925 was taken under the supervision of this Board, as provided by a change in the law.

The work was done mainly by the Assessors at a cost within the amount appropriated for ordinary expenses.

TWO HUNDREDTH ANNIVERSARY

The Town owes a debt of gratitude to the sponsors of the recent successful Pageant commemorating the two hundredth anniversary of the founding of Easton, and it is to be congratulated that the event did not pass unnoticed.

"BUSES"

Several applications for permits have been received from transportation companies. Under the law it was necessary to adopt regulations under which these permits could be granted.

At the suggestion of your Board, the several Boards of nine towns in this vicinity convened and drafted a code which is now in effect in each of these communities.

GAS

Early in the year a committee was appointed by the Selectmen to confer with the Brockton Gas Light Company with the intent of introducing this service into the Town.

This service was secured. The North Easton District has already been equipped, and we have reason to believe extensions will be made through the Town as circumstances will permit.

LEONARD H. PORTER,
FRANK C. WADE,
FRANK P. KEITH,

Selectmen of Easton.

CEMETERY FUNDS

FRANK C. WADE,
FRANK P. KEITH,
Selectmen of Easton.

Report of the Overseers of the Poor

In submitting our report for 1925, your board feels that conditions have not materially changed.

The aid furnished to Poor Outside the Almshouse has been less than in 1924. Aid amounting to \$5,198.00 was given and \$1,373.25 has been received from the state and other towns. Although we have been able to provide for each worthy case at a reduced amount, no one can foresee the conditions that may exist in 1926.

The system of appropriating a sum for the Brockton Hospital has proved unsatisfactory, and it seems that payments for cases treated must be taken care of through this department. We have added to our budget for this department an amount sufficient to cover this expense.

At the Almshouse under the care of Mr. and Mrs. Arnold the expenditures have been \$3,708.60 or about \$1,365.00 less than in 1924, and with the receipts turned over to the Treasurer of \$1,893.70, making the net cost of maintenance \$1,814.90. The board wishes to place on record its appreciation of the services of the warden and matron.

The whole number of inmates was eleven; discharged and sent to other towns, seven; now in Almshouse, four,—one male and three females.

Stock on hand consists of three cows, two horses, one hundred fowl, and farm products enough for home use.

We render herewith a table showing the comparative gross expenditures of the department over a term of five years:

	Almshouse	General
1921	\$6,706.42	\$8,534.74
1922	5,209.85	6,957.08
1923	5,216.58	7,591.59
1924	5,073.62	5,397.78
1925	3,708.60	5,198.00

FRANK C. WADE,
FRANK P. KEITH,
LEONARD H. PORTER,

Overseers of the Poor.

Report of the Assessors

In presenting our report for the year 1925 we beg to state that our tax rate is, we believe, the largest ever levied in the town, and is due to the following facts:

That more money was raised and appropriated at our 1925 Town Meeting than ever before, coupled with the fact that our State Tax was \$2,120.00 in excess of 1924; and the State Highway Tax also exceeded that of 1924 by \$3,683.75; the County Hospital Tax also exceeded the previous year by \$124.61 and the Income Tax, which we receive from the State, was \$5,751.23 less than in 1924.

At this time we desire to call your attention to the fact that the amount received on account of the income tax decreases each year until the year 1928 after which date, this money will be divided between the cities and towns proportionate to their assessed valuations, which will make Easton's share much less than we have been getting in past years.

The increases in the State and County taxes from year to year, with the decrease in the amounts received and to be received from the so called Income Tax, must be kept constantly in the minds of the voters, when they are assembled at Town Meeting for the purpose of raising and appropriating monies for defraying the expenses for the present as well as future years.

Careful consideration of these conditions as well as conservative action on the voters' part is necessary, if you wish to keep the taxes within reasonable limits for the present year.

We respectfully submit the following report of the financial conditions of the Town of Easton.

Assessed Value April 1, 1925:

Value Real Estate	\$4,164,335.00	
Value Personal Estate	1,080,220.00

Number of horses and swine decreased 19 each.

We recommend that the Assessors be authorized to apply \$5,000 of the Surplus in the Town Treasury as of January 1, 1926 for the purpose of reducing the Tax Rate for 1926.

FRANK C. WADE,
CHARLES H. ANDREWS,
FRANK P. KEITH,

Assessors of Easton.

Report of the Town Clerk

WARRANT FOR ANNUAL TOWN MEETING, 1925

Bristol, ss.

To either of the Constables of the Town of Easton in the County of Bristol, Greeting:

In the name of the Commonwealth of Massachusetts, you are directed to notify and warn the inhabitants of the Town of Easton, qualified to vote in elections and town affairs, to meet in the Town Hall in said Easton, on Monday, the second day of March next, at eight o'clock P. M., then and there to act upon the following articles:

Article 1. To see if the Town will accept the reports of the Selectmen, Assessors, Overseers of the Poor, Town Clerk, Treasurer, Collector of Taxes, School Committee, Board of Health and Tree Warden.

Article 2. To raise such sums of money as may be necessary to defray the town charges for the ensuing year, and make appropriations for the same.

Article 3. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money on and after January 1, 1926, in anticipation of revenue of the financial year beginning January 1, 1926 and issue notes of the Town therefor.

Article 4. To see if the Town will vote to raise and appropriate the sum of three hundred dollars (\$300.00) for Memorial Day, to be expended upon direction of Post 52, G. A. R., in decorating soldiers' graves.

Article 5. To see what sum the Town will authorize the Assessors to use from surplus revenue to reduce the tax levy for the current year.

Article 6. To see if the Town will authorize the Selectmen to purchase land for a gravel pit and to erect a crushing plant thereon and appropriate money for the same.

Article 7. To see if the Town will vote to establish the salaries of the Town Clerk, Treasurer and Collector of Taxes and appropriate money therefor, and to provide that hereafter all fees received by these officers shall be paid into the treasury of the Town.

Article 8. To see if the Town will authorize the Selectmen to purchase two traffic signals for use on Washington Street and appropriate money for the same.

Article 9. To see if the Town will vote to purchase a pumping engine or additional apparatus for the Fire Department, and appropriate money for the same.

Article 10. To see if the Town will vote to appropriate the sum of two thousand seven hundred and fifteen dollars and three cents (\$2,715.03), the same being the amount returned to the Town under the provisions of Chapter 48 of the Acts of 1924 (An Act Providing for the Return to the Cities and Towns of Certain Surplus Funds Collected to provide Suitable Recognition of Those Residents of Massachusetts Who Served in the Army, Navy and Marine Corps of the United States during the War with Germany) for the purpose of acquiring and equipping a public playground and to provide for the appointment of a committee to accomplish this purpose, or to raise and appropriate such other sums of money as may be necessary for the purpose.

Article 11. To see if the Town will raise and appropriate the sum of \$1,225 from which there shall be paid to the Brockton Hospital such amount as the Board of Selectmen shall determine to be not more than the ordinary and reasonable compensation for care and treatment actually rendered by said hospital to such persons, residents of the Town of Easton, as may be in whole or in part unable to pay for such care and treatment.

Article 12. To see what action the Town will take to reimburse George H. DeWitt for expenses incurred by reason of invalid tax title and illegally collected taxes, and raise and appropriate money for the same. (By petition.)

Article 13. To transact any other business that may legally come before said meeting.

And you are directed to notify and warn the inhabitants of the Town of Easton, qualified to vote in elections, in Precinct One to meet at the Town Hall, those residing in Precinct Two to meet in Ames Memorial Hall, those residing in Precinct Three to meet at the South Easton School, on Monday, the ninth day of March next, at fifteen minutes before six o'clock in the forenoon, to bring in their votes, all on one ballot, for one member of the Board of Assessors, Board of Health, and School Committee for the term of three years; Moderator, three Selectmen, three Overseers of the Poor, Town Clerk, Treasurer, Collector of Taxes, Tree Warden, five Constables and a Finance Committee of fifteen for the term of one year.

Also to vote "Yes" or "No" upon the question, "Shall licenses for the sale of certain non-intoxicating beverages be granted in this Town?"

The polls will open fifteen minutes before six o'clock A. M. and may be closed at four o'clock P. M.

You are directed to serve this warrant by posting attested copies thereof at each meeting house and post office in said Town, and at the Town Hall, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon to the Town Clerk, at the time and place of holding said business meeting, and said Town Clerk is hereby required to make return of this warrant to the Warden or Deputy Warden at the time and place of holding said meeting for the election of officers; and said Warden is hereby required to make return of this warrant to the Town Clerk, together with his return of officers elected, at the close of said meeting.

Given under our hands this fourteenth day of February, in the year nineteen hundred and twenty-five.

LEONARD H. PORTER,
FRANK C. WADE,
FRANK P. KEITH,

Selectmen of Easton.

Easton, February 21, 1925.

Bristol, ss.

I have served this warrant in the manner directed.

THOMAS DOWNEY,
Constable of Easton.

A true copy of the warrant and return thereon.

Attest:

HARRY R. FRANKLIN,
Town Clerk.

ANNUAL TOWN MEETING, MARCH 2, 1925

The meeting was called to order at eight o'clock P. M. and the warrant read by the Moderator, Leo M. Harlow.

Article 1. Voted to accept the report of the Selectmen.

Voted to accept the report of the Assessors.

TOWN OF EASTON

Voted to accept the report of the Overseers of the Poor.

Voted to accept the report of the Town Clerk.

Voted to accept the report of the Town Treasurer.

Voted to accept the report of the Collector of Taxes.

Voted to accept the report of the School Committee.

Voted to accept the report of the Board of Health.

Voted to accept the report of the Tree Warden.

Article 2. Upon motion by Mr. William N. Howard, Chairman of the Finance Committee, the following appropriations were voted for the year 1925:

Voted to raise and appropriate the sum of \$800.00 for Soldiers' Relief.

Voted to appropriate the sum of \$900.00 for State Aid.

Voted to raise and appropriate the sum of \$600.00 for Town Physician.

Voted to raise and appropriate the sum of \$600.00 for Legal Service.

Voted to raise and appropriate the sum of \$610.00 for Pensions.

Voted to raise and appropriate the sum of \$275.00 for Sealer of Weights and Measures.

Voted to raise and appropriate the sum of \$1,500.00 for the Fire Department.

Voted to raise and appropriate the sum of \$2,200.00 for the Police Department.

Voted to raise and appropriate the sum of \$2,000.00 for the Tree Department.

Voted to raise and appropriate the sum of \$3,100.00 for the Moth Department.

Voted to raise and appropriate the sum of \$150.00 for Inspection of Animals.

Voted to raise and appropriate the sum of \$500.00 for Town Accountant's Salary.

Voted to raise and appropriate the sum of \$125.00 for Town Accountant's Expense.

Voted to raise and appropriate the sum of \$225.00 for Salaries of Registrars of Voters.

Voted to raise and appropriate the sum of \$150.00 for Expense of Registrars of Voters.

Voted to raise and appropriate the sum of \$475.00 for Tax Collector's Expense.

Voted to raise and appropriate the sum of \$475.00 for Town Clerk's Expense.

Voted to raise and appropriate the sum of \$1,200.00 for Salary of Clerical Assistant to Town Clerk, Treasurer and Tax Collector.

Voted to raise and appropriate the sum of \$200.00 for Election Expense.

Voted to raise and appropriate the sum of \$350.00 for Selectmen's Expense.

Voted to raise and appropriate the sum of \$250.00 for Town Treasurer's Expense.

Voted to raise and appropriate the sum of \$450.00 for Assessors' Expense.

Voted to raise and appropriate the sum of \$100.00 for Maintenance of the Town Hall.

Voted to raise and appropriate the sum of \$700.00 for Town Reports.

Voted to raise and appropriate the sum of \$1,137.31 for Insurance.

Voted to raise and appropriate the sum of \$1,800.00 for Interest Charges.

For Town Officers' Salaries, voted to raise and appropriate the following amounts:

Assessors of Taxes	\$1,200.00
Selectmen	750.00
Overseers of the Poor	750.00
Board of Health	300.00
Moderator	25.00

There being a special article regarding the salaries of Town Clerk, Treasurer and Collector of Taxes, this matter was deferred for action under that article.

Voted to raise and appropriate the sum of \$300.00 for Incidentals.

Voted to raise and appropriate the sum of \$5,500.00 for Poor outside the Almshouse.

Voted to raise and appropriate the sum of \$4,500.00 for Maintenance of the Town Farm.

A motion was made by Mr. William N. Howard to raise and appropriate the sum of \$30,000.00 for the Road Department. An amendment was offered by Mr. William McLeod that \$5,000.00 additional be raised and appropriated for the repair and improvement of Poquanticut Avenue. This amendment having been adopted by a standing vote 146 affirmative to 11 negative, it was then voted to raise and appropriate the sum of \$35,000.00 for the Road Department, \$5,000.00 of this to be expended for the repair and improvement of Poquanticut Avenue.

For the School Department, voted to raise and appropriate the sum of \$89,122.50, this amount to include the Dog Fund.

Voted to raise and appropriate the sum of \$2,550.00 for the Board of Health.

Voted to raise and appropriate the sum of \$500.00 for printing Poll Tax lists.

Voted to raise and appropriate the sum of \$2,000.00 for a Reserve Fund, which may be expended under the direction of the Finance Committee.

Article 3. Voted that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow from time to time on and after January 1, 1926, in anticipation of revenue of the financial year 1926, and to issue a note or notes of the town therefor, payable within one year, any debt or debts incurred under authority of this vote to be expressly made payable from the revenue of the financial year 1926.

Article 4. Voted to raise and appropriate the sum of \$300.00 for Memorial Day, to be expended under the direction of Post 52, G. A. R., in decorating soldiers' graves.

Article 5. Voted to authorize the Assessors to use \$15,000.00 from surplus revenue to reduce the tax levy of the current year.

Article 6. Voted that the amount of \$7,000.00 be raised and appropriated, to be used by the Selectmen in purchase of land for a gravel pit and to erect a crushing plant thereon.

Article 7. Mr. William N. Howard, Chairman of the Finance Committee, made a motion that the salary of the Town Clerk be \$800.00 and that all fees revert to the town treasury. An amendment was offered by Mr. John Bailey that the salary be \$1,000.00, all fees to revert to the town. This amendment was adopted by a standing vote of 122 affirmative to 28 negative. It was then voted to raise and appropriate the sum of \$1,000.00 for the salary of the Town Clerk, all fees to revert to the town.

A motion was made by Mr. Howard that the salary of the Tax Collector be \$1,200.00, all fees to revert to the town. Mr. Bailey then offered an amendment that the salary be \$1,400.00, all fees to revert to the Town. This amendment having been rejected, it was voted to raise and appropriate the sum of \$1,200.00 for the salary of the Tax Collector, all fees to revert to the Town.

Upon motion of Mr. Howard, it was voted to raise and appropriate the sum of \$600.00 for the salary of the Town Treasurer, and that fees collected, if any, be returned to the town treasury.

Article 8. Voted to raise and appropriate the sum of \$530.00 for the purchase of two traffic signals for use on Washington Street.

Article 9. Voted to raise and appropriate the sum of \$12,500.00 for the purchase of a motor driven pumping engine for the Fire Department. Voted that the Board of Selectmen of Easton and the Fire Engineers of North Easton Village District be constituted as a committee with authority to purchase the pumping engine authorized.

Article 10. Voted that the sum of \$2,715.03, the same being the amount received by the Town Treasurer as a refund from the sur-

plus of the amount raised to pay a state gratuity to those citizens of Massachusetts who served in the army, navy or marine corps of the United States during the World War, be appropriated for the purpose of purchasing, laying out and equipping a public playground in Easton as a memorial to the sons of Easton who died in service, or for any of said purposes; and that a committee of seven, including the Chairman of the Board of Selectmen and the Chairman of the School Committee be appointed to administer this fund and to procure, lay out and equip a playground at such location as to said committee after investigation shall seem most desirable. The Moderator then appointed the committee: Leonard H. Porter, John S. Ames, William N. Howard, James A. Reardon, Edgar A. Craig, Oscar R. Wallin, and William McFarland. James A. Reardon, Commander of George S. Shepard Post, American Legion, was designated as Chairman.

Article 11. Voted to raise and appropriate the sum of \$1,225.00 from which there shall be paid to the Brockton Hospital such amount as the Board of Selectmen shall determine to be not more than the ordinary and reasonable compensation for care and treatment actually rendered by said hospital to such residents of Easton as may be in whole or in part unable to pay for such care and treatment.

Article 12. Voted to raise and appropriate the sum of \$35.00 to reimburse George H. DeWitt for expenses incurred by reason of invalid tax title and illegally collected taxes.

Article 13. Voted to appoint a committee of three to investigate the matter of housing the inmates of the Almshouse in some other institution or to arrange for housing in the Almshouse the poor of some other community, to report at some future date. (The Moderator appointed William N. Howard, Edward J. McNamara and Arthur F. Anderson as a committee.)

Voted to adjourn.

A true record. Attest:

HARRY R. FRANKLIN,
Town Clerk.

ANNUAL TOWN ELECTION, MARCH 9, 1925

In accordance with the warrant, the voters of the town met at their respective polling places on Monday, March 9, 1925.

The following persons were duly sworn and performed the duties of election officers:

Precinct One—Alfred W. Heath, Warden; Lilly Knowles, Deputy Warden; Clifton C. Ripley, Clerk; Gertrude C. Heath, Deputy Clerk;

Isabelle Randall, Emily L. Wry, Frank A. White, 2nd, Oreste G. Favor, Tellers.

Precinct Two—John M. Smith, Warden; Myrtie A. Spooner, Deputy Warden; Edgar W. Baldwin, Clerk; Mary H. Sweeney, Deputy Clerk; Henry McEntee, August Ledin, Eugene J. Callahan, Emma L. Keith, Tellers.

Precinct Three—Henry F. Frost, Warden; Charles D. Simpson, Deputy Warden; Nettie A. Ewell, Clerk; Mary L. Howard, Deputy Clerk; Jesse C. Wilson, Frank A. White, Florence Fenderson, Calvin A. Howes, Tellers.

The polls were opened at 5.45 A. M. and closed at 4 P. M.

The number of ballots cast in Precinct One was one hundred forty-eight; in Precinct Two, eight hundred thirty-nine; in Precinct Three, two hundred seventy-eight; total vote, twelve hundred sixty-five.

The result of the election was as follows:

Notice

The attention of parents is called to the law relating to the registering of births. The present requirement is as follows:

Chap. 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent . . . who neglects so to do for ten days after the time limited therefor, . . . shall forfeit not more than five dollars for each offense.

Attention of Physicians and Midwives is called to Chap. 280, Sec. 1, Acts of 1912: Sec. 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they are in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred, a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians, and midwives applying therefor, blanks for return of births as required by law.

Report of the Superintendent of Streets

To the Selectmen of the Town of Easton, I submit the following report of the Street Department for the year 1925.

There has been considerably more work done this year on account of a larger appropriation and new equipment. The bushes have been cut on most all the roads in Town. The sidewalks have been plowed when there was snow and sanded when it was icy. The roads have all been ploughed out very quickly when there was snow, with the two trucks and two tractors with the snow plows. One four wheel drive truck and two snow plows are furnished us by the Massachusetts Department of Public Works, Division of Highways.

All the catchbasins and gutters have been cleaned several times. Two new catchbasins have been built, one in Eastondale and one on Holmes Street.

About sixty miles of dirt and gravel roads have been scraped. All graveled roads were widened and crowned to secure proper drainage. After scraping, all leaves, sods, stone and other unsuitable material were removed.

About four miles of road have been graveled, including a part of Rockland Street, Mill Street, Allen Road and Massapoag Avenue. One mile of new gravel on Foundry Street from Prospect Street East. After a thorough rolling, this road was given two applications of Tarvia B, making a total of about three-fourths of a gallon to each square yard. The result has been a good smooth road with a dustless, water-proof surface at a very small cost. Spooner Street, Linden Street, King Avenue and Lincoln Street from the Flyaway Pond to Bay Street have been newly graveled and received the same Tarvia treatment as Foundry Street. Bay Street from the Five Corners to Highland Street was scarified and reshaped and given two applications of Tarvia. High Street from Turnpike Street to the West Bridgewater line has been filled in with gravel, and Seaver Street has been extended 150 feet. Short Street and Prospect Street have had some gravel, and a good many loads of gravel and crushed stone were used to patch holes and fill ruts on Highland Street, Foundry Street, Norton Avenue, Central Street and Pine Street and Randall Road.

Considerable work has been done patching holes with crushed stone and Tarvia. Many of these holes were made by the Gas Company in the North Easton District.

During the year about five miles of tar road have been resurfaced with Tarvia and sand.

A Bituminous macadam asphalt paving was built on Highland Street a distance of 2,800 lineal feet, at a cost of \$18,693.92, of which the State paid one-half. This road was cut and filled to make a better grade and four inches of new gravel in the bottom, a ten inch stone fill and a four inch macadam top penetrated and sealed with 12,900 gallons of asphalt. Three new metal culverts were installed and 450 feet of guard rail built.

A new road has been built on Poquanticut Avenue from Beaver Street north 2,600 feet. More than one-half of this distance is stone fill and the rest gravel with a three inch macadam top penetrated with 1¾ gallons of Tarvia to the square yard. This piece of road cost \$5,000.

During the past year the Street Department has purchased considerable new equipment, including a Trailer for the Fordson Tractor, a Conant Bucket Loader, a Burch stone spreader, an Acme Power Grader, and an Acme Crushing Plant. The Town has also purchased a gravel hill off Center Street.

I think with this new equipment and larger appropriation we have made a good showing and will soon have many more miles of hard surface roads in Easton.

Respectfully submitted,

GEORGE A. WILBUR,

Superintendent of Street.

Report of Inspector of Animals

To the Selectmen of the Town of Easton,

Gentlemen:—

I herewith submit my annual report for the year ending December 31, 1925.

During the year I have inspected one hundred fifty-eight stables in all. 966 animals, consisting of 715 cows, 150 young cattle, 37 bulls, 58 swine, 6 goats, by order from Department of Animal Industry have been called to inspect cattle from out of state and see that stables have been properly disinfected.

I have quarantined two cows under suspicion of having the disease known as tuberculosis, both condemned, slaughtered and sold to rendering company.

JOSIAH C. GOWARD,

Inspector of Animals.

Report of the Tree Warden

To the Citizens of the Town of Easton:

I submit the following report of the department for the year 1925.

Six rock maples purchased from Littlefield and Wyman, and seventeen Norway maples taken from the nursery at the Town Farm, were planted in the spring of 1925.

Two maples on Centre St. and one elm on Pond St. were posted, and later cut. An elm tree on Sullivan Ave. was also taken out.

Several dead trees along the roadsides throughout the town were also removed.

A more thorough trimming job was done this year, and on many of the streets the lower branches were removed, giving greater clearance for traffic. This work should be continued this year.

Several trees were found to be split, requiring bolting, and five still remain to be bolted, the appropriation having been nearly expended before they were found.

No spraying was done this year except as was done by the Moth Department.

The slight outbreak of elm leaf beetle of 1923-4 appears to be again under control.

The usual trimming by wire companies was allowed under my direction.

Several requests for the planting of trees this spring have already been received, and those desiring trees planted should notify the Tree Warden early in the season, so that plans may be made for the work before it is too late.

I recommend that the sum of \$2,000.00 be allowed for the use of the Tree Warden in 1926.

Appropriation		\$2,000.00
Expenses:		
Pay rolls	\$1,600.50	
Supplies	396.32	
		1,996.82
Unexpended Balance		\$3.18

For a detailed account of expenses see Town Accountant's report.

Respectfully submitted,

ROSCOE W. MELENDY,
Tree Warden.

Report of the Superintendent of Moth Work

To the Selectmen of the Town of Easton:

I submit the following report of the work of the Moth Department for the year 1925.

Creosote work for the Gypsy Moth, and cutting of Brown Tail Moth webs, was done in the fall of 1924 and spring of 1925.

A large power sprayer and Packard truck were purchased for the use of the Moth and Tree Departments. This proved very satisfactory, carrying, when necessary, two lines of large hose at a pressure of 300 to 400 lbs. This greatly aided the work of spraying. The two old sprayers were advertised for sale, but no response received.

The season of 1925 was exceptionally favorable for all insect growth, and in the scout work this season, we are finding an increase of egg clusters in some sections where spraying was curtailed.

While no work has as yet been done cutting Brown Tail Moth webs, it is safe to say there will not be as many as last year.

The appropriation of \$3,100.00 proved to be in excess of the town liability, and as your Superintendent did not believe that the conditions required the expenditure of the excess appropriation, the balance remains in the treasury unexpended.

I would recommend for use of the Department in 1926 the sum of \$3,056.34, the town liability.

Appropriation	\$3,100.00
Expenses:	

Pay rolls	\$1,557.25	
Supplies, Sprayer and Overhauling	1,360.26	
		2,917.51

Unexpended Balance	\$182.49
--------------------	----------

For a detailed account of expenses see Town Accountant's report.

Respectfully submitted,

ROSCOE W. MELENDY,
Superintendent of Moth Work.

Report of the Sealer of Weights and Measures

To the Selectmen of the Town of Easton:

I submit the following report of work and expenses of the Sealer's Department for the year ending Dec. 1st, 1925.

	Adjusted	Sealed	Con- demned	Not Sealed
Platform scales over 5,000 lbs.	3	4		
Platform scales under 5,000 lbs.	14	29	1	
Counter scales over 100 lbs.		1		
Counter scales under 100 lbs.	4	36		
Beam scales		1		
Spring scales over 100 lbs.		6	1	
Spring scales under 100 lbs.	1	18	1	
Computing scales under 100 lbs.	3	27	2	
Personal weighing		2		
Prescription scales		2		
Weights, avoirdupois	4	227		
Weights, apothecary		28		
Weights, metric		13		
Liquid measures		301	6	
Gasoline pumps	8	46	4	3
Kerosene pumps		13		
Oil pumps	2	10	1	33
Quantity stops	32	256		
Molasses pumps		4		1
Yard measures		15		
Totals	71	1,039	25	37

Inspections:

Coal certificates	5
Junk scales	4
Ice scales	5
Pedlers' licenses	9
Pedlers' scales	7
Paper cartons	69

Tests:

Retest gasoline pumps	52
Paper cartons	23
Berry baskets	14
Milk jars	18

The work of the Department has materially increased during the past year and it became necessary, in order to keep expenses within the appropriation, to omit the test weighing of articles and packages in the stores. This is an important part of the work and should not be omitted.

I recommend for use of the Sealer in 1926 the sum of \$350.00.

Appropriation	\$275.00
---------------	----------

Expenses:

Labor	\$218.25
Supplies, and Weights Renickled	56.42
	\$274.67

Unexpended Balance	\$0.33
--------------------	--------

Respectfully submitted,

ROSCOE W. MELENDY,

Sealer of Weights and Measures.

Report of the Board of Health

To the Citizens of Easton:

The number of contagious and infectious diseases reported during the year 1925 was 80 made up as follows:—Chicken Pox 33, Measles 16, German Measles 10, Scarlet Fever 7, Pulmonary Tuberculosis 5, Renal Tuberculosis 1, Lobar Pneumonia 4, Gonorrhea 2, Mumps 1, Whooping Cough 1.

There were six deaths during the year in which a reportable disease was the direct or contributory cause, Pulmonary Tuberculosis 3, Measles 2, Lobar Pneumonia 1.

During the year we have had five tuberculosis patients in the Bristol County Tuberculosis Hospital. Two of these deceased, two were removed to other institutions so that at the close of the year we had but one patient in this hospital.

Tuberculosis as usual has been the largest item of expense, the Board having paid out on this account \$993.18, of which \$958.10 was paid for hospital treatment.

Licenses issued by the Board in effect during 1925 were as follows: Milk dealers and producers 132, Manicuring and massage 6, Manufacture of non-alcoholic beverages 1, Slaughtering license 1, Sale of denatured alcohol 2, sale of oleomargarine 6.

The Board issued 74 burial permits during the year.

The number of births during the year was 99 including two still births.

The number of deaths of residents of Easton was 85, including two still births. Eighteen of these deaths occurred out of Town.

We append report of Inspector of Slaughtering.

The financial report is as follows:—

Receipts	
Appropriation	\$2,550.00
Expenditures	
Milk Inspection:	
Paid Easton School Dept. Inspections for 1924	\$123.33

Respectfully submitted,

DAVID J. O'CONNELL,
FRANK E. TILDEN,
CORA E. HENNIGAR.

Report of the Inspector of Slaughtering

North Easton, Jan. 1, 1926.

To the Board of Health.

Gentlemen:

From October 1, 1924 to January 1, 1926, I have inspected 100 carcasses of beef, 121 carcasses of veal, 13 swine.

Two carcasses of beef I found affected with Tuberculosis, one with Septic Mastitis, 6 veal were underweight, all of which were condemned and disposed of to the rendering company.

JOSIAH C. GOWARD,
Inspector.

Report of Finance Committee

To the Citizens of Easton, Mass.:

The town officers having to do with the expenditures of town funds have come before your committee with facts and figures pertaining to appropriations for 1926 and have entered heartily into a discussion of the whys and wherefores. Your committee is appreciative of the courteous spirit manifested. While it is true that the town of Easton has no outstanding debt, a most uncommon record, the three districts within its border have, however, taken upon themselves obligations which require that bonds and interest charges be met. So the burden of municipal debt is not unknown to a large majority of our taxpayers. It is a burden which should not be increased if avoidable.

Obligations are easy to assume with collection day a long way off. But the fact that they must be met must not be forgotten.

The Problem

Your Finance Committee is supposed to carefully consider the town situation as a whole, weigh the needs of different departments and different localities, and determine, so far as it may be able, what proportion of these needs may be met during the current year. An amount which is quite uniform must be annually appropriated to meet fixed charges in every department.

There is also constant demand for betterments. These demands cannot be satisfied all at once. Urgent needs, if not a matter of common knowledge to the departments or to the Finance Committee, should be brought to the attention of the Finance Committee at least two months before the town meeting in order that they may be considered in the plans for the future. The presentation of carefully arranged budgets is useless if momentary enthusiasm and sympathy of voters at the annual meeting is to govern the appropriation of money. Everyone desires that taxes shall be kept within reasonable limits. The surest way to keep taxes down is by keeping appropriations down.

A Favored Town

Easton has been partially relieved of many financial burdens by reason of substantial incomes from certain bequests and also by reason of outright gifts of beautiful and necessary buildings, the erection of which would otherwise have compelled the issue of bonds and

the meeting of heavy interest charges. In 1925 income from the Oliver Ames bequest added \$7,349.00 to the sum available for schools. From a similar bequest an increase of \$9,384.00 was available for roads. Nearly \$17,000.00 in cash is annually coming from these sources. The Free Library, Memorial Hall, High School and new Grammar School building have all been princely gifts to the Town of Easton. Of these bequests and of these gifts the citizens of Easton should be ever mindful and appreciative.

The Road Department

Last year \$7,000 was raised and appropriated for new equipment. Improved facilities should enable the department to accomplish greater results for each dollar appropriated than has previously been possible. The recommended appropriation and the amounts available from other sources of town taxation will give this department a total of \$43,000 for 1926, of which amount \$28,000 is to be raised by taxation.

The School Department

This year the Town of Easton will lose \$4,000 to which it has previously been entitled from the State. This is due to school enrollment and valuation conditions which places Easton outside the required condition for receiving this amount from the Commonwealth.

The total available for the School Department from all sources will be \$94,908. Of this amount \$78,043 will actually be raised by taxation. The amount you will be asked to appropriate is the exact amount which is necessary for the town to appropriate in order to avail itself of the income from the Oliver Ames Fund, which income will this year be approximately \$7,000.

The Moth Department

Last year the appropriation for this department was \$3,100.00. Of this amount \$189.49 was unexpended. Serious consideration has been given to the desire in many towns to entirely eliminate appropriation based on a certain percentage of the assessed valuation of the town. Your Finance Committee are not prepared to say that this appropriation should be discontinued. They do feel, however, that in consideration of present conditions it should be reduced, and have therefore recommended the appropriation of an amount which is about half that of last year.

New Equipment

The Selectmen proposed the purchase of a caterpillar tractor equipped for snow plow purposes, as it was found impossible to keep roads clear with present outfit. The Selectmen stated that the price could be obtained from the recommended road appropriation of \$28,000 for 1926 and requested the opinion of the Finance Commit-

tee as immediate decision was necessary. Full attendance of the Committee could not be secured. However the plan was approved by all present. The outfit cost \$5,800.00 and is capable of traveling five miles an hour in snow three feet deep. Present modes of travel absolutely require that the roads be kept open for automobiles. With former equipment this was impossible. The two storms in early February caused inconvenience and delays involving actual money losses in wages and expenses. If this was estimated at \$1.00 per person, which seems low, it shows that the loss to the citizens of the town of Easton by reason of these two storms was sufficient to buy an outfit which would clear the roads and which outfit would last for years. With blocked roads emergencies of fire and sickness cannot be met, and desperate situations might readily occur.

We believe this action will meet the approval of all.

ANNUAL REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Easton:

The School Committee herewith submits the ninety-eighth annual report.

A program of improvement has been carried on at the Furnace School building for three years. In September 1925 it was unexpectedly increased by a summer storm. To repair the damage done by lightning, the tower has been removed, the roof shingled and a new metal flag pole placed in the yard. The insurance adjustment allowed for the repairs and a sum was advanced from the emergency fund of the town. The regular program of this year has included electric lights, basement toilet rooms and two cement stairways leading from the lower floor.

In his report the Superintendent has shown the crowded conditions existing in the High and Junior High Schools. A new Junior High building would remedy the situation and must be constantly borne in mind for the near future. The last report of the building inspectors was published in the town report for 1924.

The new north wing of the gymnasium containing showers and locker room has been completed. It is now being used by the classes in physical education. The Town is indeed grateful to Mrs. Frothingham for the means to carry on these classes more efficiently and with greater benefit to the pupils.

Complaints have come to the School Committee from time to time about the drinking water at the Poquanticut School. The test showed that though the water is suitable for drinking purposes, it contains an unusual amount of iron. To obtain clearer water, one hundred and sixty-six feet was drilled below the bottom of the well at a cost of \$1,293.95.

Progress in school matters at present points to consolidation. The one room school with small numbers in each grade, does not offer enough stimulus to the child, while the number of grades is too many for one person to teach efficiently. Having considered the matter carefully, it was decided to close the Howard School and transfer the pupils to the Furnace. Both educational and economic benefit will result from the change.

TOWN OF EASTON

In the school report of last year was included a copy of the Oliver Ames Bequest. The townspeople wisely and generously voted that that income might be retained for the schools. Now, it is even more necessary that the terms of the will be met, for the General School Fund has decreased. This is the fund which is returned to us from the state according to our valuation and school membership. If the annual valuation per pupil reaches \$4,500 the state gives less reimbursement than to poorer towns. The figure is obtained by dividing the valuation of the town by the net average school membership. Since the valuation of the town has increased to \$5,244,555 and the average school membership has decreased to about 1,125, the quotient places us in the group of towns receiving less help from the state. The loss is \$4,200.

The resignation of Carlon E. Wheeler was received in September 1925. Mr. Wheeler had served as superintendent since 1918, carrying the schools through the trying years immediately following the war. The excellent running order in which he left the schools of Easton shows the influence of a progressive spirit and an unflagging energy. The School Committee wishes him success in his new field. It will be the logical result of his constructive and thorough work. He is an able school man. Gilbert C. Mann has been appointed to take his place.

The following table shows the distribution of expenditures for repairs and new equipment by schools for 1925:

	Repairs		New Equipment	Furniture and Fur- nishings
	Exterior	Interior		
High School	\$45.00	\$455.94	\$527.06	\$1,902.38
Junior High	65.00	253.38	97.53	595.97

Amount to be raised by taxation
including dog tax \$78,043.00

*Appropriated to cover the expense of repairing lightning damage at the Furnace School. \$1,185 received from the insurance companies went into the town fund and was not available for school purposes.

Respectfully submitted,

JOHN S. AMES, Chairman
DORRIS B. MORSE
GEORGE W. COULIE

Report of the Superintendent of Schools

To the School Committee:

Madam and Gentlemen:

Herewith is submitted my first report as superintendent of schools, and the fortieth annual report from this office. I wish to acknowledge the assistance received in its preparation from principals, teachers and supervisors; their aid has been particularly helpful this year because of the change in superintendents on September first.

This report will attempt to cover the main activities of the year, to discuss some of our school problems, and to name some of our school needs.

AIMS OF MODERN EDUCATION

The seven main objectives or aims of modern education generally accepted by practical educators are: (1) Health and Physical Development, (2) Mastery of the Fundamental Processes, (3) Worthy Home Membership, (4) Vocations, Industrial and Professional, (5) Worthy Citizenship, (6) Right Use of Leisure Time, and (7) Ethical Character. The constantly widening field of human activities, resulting from a better knowledge of the laws of nature, is placing, as time goes on, more and more responsibility on the public school system. Consequently, so that we may not go astray, this statement of the general aims of education is necessary. Our teachers have these aims constantly in mind, and our teaching is intended always to contribute to one or more of these objectives. Thus we, as teachers, are helped to keep before us the fact that our main business is not that of teaching subjects, but rather teaching boys and girls how to live worthwhile lives.

HEALTH PROGRAM

The program of health work and physical development in the schools of Easton falls under five headings: (1) physical education, (2) health instruction, (3) health inspection by the school nurse and school physician, (4) milk lunches for under-weight children and (5) health clinics.

Physical Education. A rather complete and definite program of physical education has been carried out in all of the schools of the

town under the direction of the supervisor, Napoleon St. Francis. With the exception of a few students who had unavoidable conflicts in their program of studies and of a number who were excused on physicians' certificates, all students in the high school have had two full hours each week in the physical education classes, either in the gymnasium or out of doors at the Plains. Junior high school pupils have one and a half hours each week in physical education. During the spring and fall months this work was carried on at the Plains and consisted chiefly of inter-group games, such as soccer for boys and field hockey for girls. On rainy days, and during the winter months, the work was in the gymnasium and consisted largely of marching, calisthenics, apparatus work and games. Beneficial results from this work in the high and junior high schools are apparent. Particularly noticeable is the improved posture of the members of our student body. Better muscular co-ordination is evident with practically all of the girls and with a large majority of the boys. Improvement of this nature comes on so gradually that the casual observer is likely to overlook it. However, when comparisons are made with groups not receiving this form of physical development, the difference is manifest.

The physical education in all of the elementary schools of Easton is similar to that reported by Miss Mary A. Stone, principal of the North Easton Grammar School. She reports: "In the North Easton Grammar and Primary Schools five periods a week, each from twenty to thirty minutes in length, are devoted to Physical Education. This work consists of calisthenics, games and one folk dancing lesson a week.

"All physical education work is done out of doors when the weather is suitable, each teacher having a special period for her class. This work has taken the place of the free-play recess in which there was more or less roughness among the pupils.

"Last May an out-door festival was held on the North Easton Grammar School grounds, in which pupils from all the first six grades took part." In all of this work, good posture, which means so much to the individual in later life, has been emphasized.

Health Instruction. "By means of discussions, dramatization, health maxims, health exercises and health posters, much is being done by the teachers to impress upon the children the necessity of good health," (from report of the Principal of the North Easton Grammar School). This is the typical method of all of our elementary schools. In the junior high school the courses in hygiene and general science which all pupils must take give opportunity to drive home health experiences. All of our high school girls (except the few who take Latin) are required to take the course in "Home and Health" during the sophomore year. The high school course in

Biology, elected by about seventy per cent. of our pupils, gives further preparation for healthful living.

Health Inspection. • Early in the fall of each school year an examination of each child is made by the school physician, assisted by the school nurse. All beginners and all ten year olds are given a complete and thorough examination, while others receive the brief examination. Thus in passing through our school system all children will be given the complete examination at two periods in their development, while the brief examinations given during the other school years serve to check up on defects. A physical record card, started when he enters school, follows the child through school, the results of the yearly examinations, as well as results of follow-up work, being entered when made.

The school nurse visits the North Easton Grammar School, the Junior High School and the High School daily. Children showing symptoms of contagious or infectious diseases are then examined by the nurse or referred to the school physician, and excluded from school, if need be, thus safe-guarding the health of the others. While daily visits of the nurse to outlying schools are impossible, these schools are visited periodically and at the request of a teacher.

The value of health inspection was demonstrated in November when it became necessary to close the Poquanticut School, by order of the Board of Health because of several cases of scarlet fever among the pupils. High and Junior High School pupils coming from Poquanticut were examined daily during that period by the school nurse for symptoms of the disease. Fortunately only one case developed among these older pupils.

Health Clinics. The school nurse reports as follows:

Number of children taken to Boston Eye and Ear Infirmary	12
Number of children taken to Children's Hospital, Boston	3
Number of children taken to hospital for tonsil and adenoid operations	13
Number of children taken to Massachusetts General Hospital	4
Number of children taken to Brockton for X-ray	1
Number of trips taken to Brockton Cardiac Clinic (3 children)	7
Several tuberculosis clinics of which no record is available.	

Underweight Children. In all the grades in North Easton below the Junior High School a half pint of milk and a graham cracker are served daily to pupils who are ten percent or more underweight. All grade pupils are weighed twice a year, with more frequent weighings for these underweight pupils. Results of the weighing are sent to parents with the report cards.

TOWN OF EASTON

EDUCATION WEEK

The annual observance of Education Week was held in Easton on November 17, 18, 19 and 20. Evening sessions were held in the High School, the Junior High School and the Unionville School. Other schools had special visiting days. Believing that parents and citizens should observe the regular work of the school, rather than be entertained by a special program, the daily class-room schedule was used in all except the Unionville School. More than eight hundred adult citizens of Easton visited Easton's schools during that week. The event is observed nationally each year, and serves to focus the attention and interest of the American people on the work of the schools.

EVENING SCHOOL

The evening school aims to assist two classes of people: (1) illiterate minors, of whom there are practically none above school age in Easton, and (2) the foreign born. The work with the foreign born aims to give them some degree of familiarity with the English language, to inculcate in them some of our ideals, and to fit them for American citizenship. The group in attendance this fall has been smaller than in previous years, and probably will never be large again in Easton. Some splendid work has been done with a number of earnest students, however. The town receives reimbursement from the state to the extent of one-half the expense for salaries incurred for the Americanization work, thus making the financial burden to the town a very small one. In view of this fact and the great service which the evening school accomplishes for some of these people, I am strongly of the opinion that this branch of our educational activities should not be abolished for the present.

PROFESSIONAL IMPROVEMENT OF TEACHERS

Nineteen of our Easton teachers enrolled this fall in a University Extension course given in the Brockton High School by Dr. Shaw of Harvard. This course has to do with standard tests and measurements. Several members of our staff attended summer schools last summer. Interest on the part of teachers in the professional library in the superintendent's office continues. I believe that Easton's teachers, taken as a group, are professionally alert, progressive, and eager to fit themselves so as to be of the greatest service to the community and its children.

CHANGES IN TEACHING STAFF

Only one change occurred in the teaching staff of the elementary schools of the town during the year. This is as it should be; it cannot fail to increase the efficiency of the schools. Likewise in the Junior High School there was only one change. In the High School,

however, we find quite a different situation. Four only of the staff last June reported for duty in September. This frequent teacher turnover in the High School is a serious problem of our school system.

I believe that four factors operate to bring about the large number of changes annually in the high school teaching staff:

(1). The difficulty in securing satisfactory living conditions. Unlike the majority of the elementary and junior high school staffs, most of the high school teachers come from a distance. This means that boarding and rooming accommodations must be provided. It has become extremely difficult to find satisfactory places for all of the high school teachers.

(2). The demand for experienced teachers in larger systems. With the exception of three members of last year's staff who left to take up home-making duties, all of our high school teachers who have accepted positions elsewhere have gone to larger systems, as follows: Miss Wilson, Quincy High; Miss Woodis, Dedham High; Miss Everett, Manchester, N. H., High; Miss Fitzgerald, Chelsea High; Mr. McIntosh, Brookline.

(3). The salary schedule. This of course is an all-important factor in preventing frequent changes in teachers. Easton's salary schedule is reasonable and compares favorably with that of other towns of its size. Often an extra hundred dollars will retain a valuable teacher where otherwise she would be replaced by a less experienced teacher with considerably less teaching efficiency.

(4). A feeling on the part of some high school and junior high school teachers that they are over-worked. In comparison with other school systems this is true. Several of our instructors are teaching six classes, where the maximum load should be five. The burden is felt most keenly during the second semester of each year, when, due to the semi-annual promotions as far as the high school, an additional section of 30 or more students must be taught.

I feel that the first of these four factors can be most easily remedied by the people of the community. The community, in duty to its boys and girls, is under obligation to make the living conditions and the social life of non-resident teachers comfortable and agreeable, to the extent that they will wish to remain with us. The remedy for the fourth factor is obvious.

METHOD OF ADMISSION TO FIRST GRADE

Each year the school department is requested to admit children whose ages do not meet the requirements for admission. Realizing that mental age does not always parallel physical age, the School Committee in 1923 made provision for the admission of underage

pupils who have a mental age of 5 years 10 months. The Stanford Revision of the Binet-Simon Tests has been used to determine mental ages.

Our teachers have been very enthusiastic over the better classification of pupils resulting from this method of admission. Since school work is largely mental work, it seems logical that the mental development of the child, rather than his physical age should be the determining factor in his admission to school. Under this plan the teacher receives a group of pupils of nearly the same mental age who are able to progress more nearly at the same rate of accomplishment. If admission were based solely on physical age, the teacher would have a group in which the differences in mental age and in actual ability to do school work would be much greater than under the present plan. In comparing this plan with the former method of admission based on physical age only, it is evident that no injustice is done the child whose mental age does not exceed his physical age, because he is admitted at exactly the same age as he would be if the mental test were not used. On the other hand, the more precocious child is given the opportunity for mental occupation and development as soon as he is ready for it.

Unlike the teacher, the average parent is not in a position to observe, except in a very limited way, the individual differences of children. He therefore finds it difficult to understand why one child is admitted while another of the same age is excluded. I am firmly convinced that the plan is sound educationally. It is in use in some of the most progressive school systems of Massachusetts, such as Plymouth, Winchester, and West Springfield.

THE JUNIOR HIGH SCHOOL

Our Junior High School is doing very efficient work. It is working under difficulties, however. Due to the increased enrollment in the Oliver Ames High School, with the resulting crowded conditions, the Junior High School building has been used as an overflow building. Ten or more high school classes daily are meeting in the Junior High School building. Conditions have now reached the point where our high school classes are making it necessary for Junior High School pupils who are having study periods to give up their study rooms and go over to the high school study hall for these periods. Study periods for Junior High School pupils under these conditions are not economical. I hope that the day is not far distant when a modern junior high school building, large enough to accommodate grades 7, 8 and 9, will be built. The removal of grade 9 from Oliver Ames High School would largely eliminate the crowding there.

The following is quoted from the report of the Junior High School principal, Miss Mary F. Conley:

"One fact mentioned last year is worthy of repetition. One-half of our enrollment every year is made up of new pupils for whom there is a complete readjustment before satisfactory progress can be expected. A study of the individual pupil of Junior High age, his ability and needs, is required of all Junior High teachers. In return a pupil should show a willingness to work. He should acquire a sense of honor and responsibility. There should be co-operation which will result in every pupil's getting all he can out of a Junior High course and, especially, training himself to complete successfully a High School course and later to compete, to his credit, with others in college or a university, should he desire to do it. Good habits should be formed here.

"We should like to be able to arrange more manual work and vary the curriculum for some special pupils who are required by law to remain in school until they are sixteen years of age. At present each teacher has a full schedule, all the regular class work is carried on and some pupils, who need special attention and training, are not getting all they require."

Miss Conley shows the need of part of the time of another teacher in her organization. I feel very strongly that more should be done for the type of boy or girl in the Junior High School who is not attracted by the academic subjects. We have too many who are simply waiting until they are old enough to leave school. Undoubtedly the full time of a teacher trained in the household arts could be used to great advantage in the Junior High School, instead of half the time of such a teacher as is the case at present. This would allow the manual training instructor to give more attention to the boys.

In spite of any handicaps under which our Junior High School may be working, it is doing a remarkable service to the boys and girls who pass through it. This is perhaps best shown by the fact that it now sends along to the senior high school practically as many pupils as it receives. Where it now sends a hundred or more boys and girls annually to senior high school, a few years ago, with the town's population practically the same, it was sending only 65 to 80 per year.

OLIVER AMES HIGH SCHOOL

Growth of the High School. The following table has been taken from last year's report and brought up to date.

Enrollment	February 1, 1921	207
Enrollment	February 1, 1922	215
Enrollment	February 1, 1923	240
Enrollment	February 1, 1924	257
Enrollment	February 1, 1925	298
Enrollment	February 1, 1926	307

These figures show a rapid rate of increase in our high school enrollment. During this period there has been very little change in the population of the town. Therefore the increase must be accounted for in two ways only: (1) a more favorable attitude toward and a greater desire for high school education on the part of young people and their parents, and (2) increased efficiency on the part of the high school in meeting the needs of individual pupils and thus in holding them in school. The influence of the junior high school in sending more pupils to high school has already been mentioned.

Crowded Conditions. The total number of student's desks in the high school building is 298. As noted above, the February, 1926, enrollment is 307. Thus at least nine students will not be able to be seated in the high school building, but will have home desks in the junior high school. The situation regarding class rooms is worse. From February to June 60 high school recitations (including shop and laboratory classes) per week will be held in the Junior High School building. This means a great deal of traffic in the halls and stairways of both buildings, besides great inconvenience. Furthermore, high school classes held in junior high class-rooms result in the forcing out of junior high pupils who have study periods, compelling them to cross to the high school study hall. As previously noted, this is not economical use of the junior high school pupil's time. It still further increases the traffic problems in the two buildings.

Even with this extensive use of junior high school class rooms by high school pupils, there are not enough class rooms to go around. One small Latin class must meet in the principal's office or in hallways for the remainder of the present school year.

The only real solution of this problem, it seems to me, is the erection of a new junior high school building which will not only take care of the present junior high school, but also of the freshman class of the high school. Then our school system would be organized on the 6-3-3 plan,—six years in the elementary school (above Kindergarten,) three years in the junior high school and three years in the senior high school. In this way the crowded conditions in the high school would be done away, and our junior and senior high schools would then be organized along lines generally advocated today.

A temporary solution, or at least a partial alleviation of the crowded conditions, would result from moving the superintendent's office from the high school building, thereby making this room available as a class room for small classes.

Commercial Department. In September an additional teacher was secured for the high school staff. Four fifths of the work assigned to her was in the Commercial Department. Thus, because of increased enrollment, we have a department requiring practically all

of the time of three teachers. In December the School Committee designated Miss Marion Smith as head of the department. As Principal Eugene Thrasher, Jr., says, "This follows the trend in other schools of co-ordinating the work of the department and making far increased efficiency. The school is fortunate in having so able a teacher as Miss Marion Smith to head the department."

Science Department. Much has been done during the last two or three years to improve our facilities for science teaching. This has been done through the furnishing of the Biology room and through the purchasing of needed equipment and supplies for laboratory and demonstration work in chemistry and physics. The Biology room was equipped during the school year 1924-25, and with the exception of adequate water facilities it is thoroughly equipped for laboratory as well as for formal class work. All necessary supplies for effective laboratory work in chemistry have been furnished. In physics, where laboratory apparatus is more costly, much has been done to make possible laboratory work for the class, and plans are made which should furnish all needed equipment before the end of the present year.

New Principal. On August 25, Mr. Eugene Thrasher, Jr., was engaged as high school principal. The School Committee was very fortunate in securing a man of his ability so late in the year. Mr. Thrasher was graduated from Wesleyan University in 1912. He served as high school principal at Essex, Mass., for one year, followed by three years as a member of the teaching staff of the Fay School at Southboro. After seeing service in the World War he returned to teaching, first in the high school at Pawtucket, R. I., then at the Melrose High School and later was assistant principal and head of the History Department at Haverhill High School.

Extra-Curricular Activities. A debating club has been active throughout the year. The high school paper, *The Eastoner*, has been published as usual and has steadily improved. The *Eastoner* has been of great value in motivating English composition work. Work in dramatics has come in for its share of attention, both as a class room activity and outside the class room. The Senior Class play, "Golden Days," was given at Ames Memorial Hall on April 30 and May 1 to large audiences.

The athletic teams were reasonably successful. The girls' basketball team won all of its games. Our girls have lost but two games in the last four seasons. The boys' basketball team played nineteen games and won fourteen of them. In baseball two games were won and eight lost. While everyone likes to win, the ideals of clean sportsmanship, team work and character building are given more emphasis than the actual winning of games.

Scholarships. The Easton Federated Clubs' Scholarship was awarded at commencement last June to Howard M. Thompson, who is now attending Northeastern University. Scholarships of this kind are much appreciated by the school officials and are a great aid to worthy graduates.

BOYS' AND GIRLS' CLUB WORK

Mr. Leo J. Fitzpatrick is in charge of the home garden and club work in Easton. He reports as follows for 1925: "The following is the report of my activities in connection with Boys' and Girls' Club Work for 1925. Fourteen boys and girls were enrolled in the Home Garden Club. During the summer helpful literature on the subject of gardening was distributed to the members and the gardens visited twice, once in August and once in September. At each of these visits helpful criticism and encouragement was given to club members relative to their work.

"Account books were distributed and assistance given to club members in preparing a record of the receipts and expenditures of their garden projects.

"Boys and girls exhibited their products at the Brockton Fair and at the Bristol County Fair. The following is a list of the prizes won at Brockton Fair: Henry Andrews, second, Squash; Gordan Grant, first, Pumpkin; Howard Jennings, first, Miscellaneous class; Gordan Grant, third, White Plymouth Rock Cockerel. At Bristol County Fair the following winners were from Easton: Kenneth Tufts first on Display of Vegetables, Ruth Cruickshank second on Display of Vegetables, Everett Weeks first on Plate of Potatoes, Edward Cruickshank third on Plate of Potatoes, Mary Cruickshank fourth on Plate of Potatoes, Robert Andrews fifth on Plate of Potatoes, Mary Cruickshank first Plate of Beets, Edward Cruickshank second on Plate of Beets, Ruth Cruickshank second on two Squashes; Paul Brandt fourth, on two Squashes; Mary Cruickshank third on Plate of Cucumbers, Henry Andrews second on two Sugar Pumpkins.

"Last year an Easton girl won the first prize for having the best club garden in Bristol County. This year I am pleased to say that one of our members, Paul Brandt, has been declared first prize winner for Bristol County, and as a prize for his good work will be given the privilege of attending the State Winners' Camp at the Massachusetts Agricultural College next summer and have his entire expenses for the week paid by the state."

CHRISTMAS EXERCISES

At the last school session before Christmas vacation, through the kindness of Mrs. F. Lothrop Ames, Mrs. John S. Ames and Mrs. Louis A. Frothingham, the children of the Kindergarten and first two

Primary Grades again enjoyed Christmas trees well loaded with toys and sweets.

In all other grades below the Junior High School there were appropriate exercises, trees or Christmas boxes.

CONCERTS IN BOSTON

The attendance at a series of five children's concerts in Boston by ten of our boys and girls who are especially interested in instrumental music was made possible by Mrs. John S. Ames, who provided the tickets. Mrs. Ames has also provided tickets for single concerts for a number of other children.

TESTING PROGRAM

One of the newer developments in elementary and secondary school work is the use of standard tests. These tests are scientifically formulated and have been standardized by being given to thousands of children. From the results obtained in this way standard scores have been provided. Thus a convenient method of comparing the achievements of Easton children with the educational achievements of children of other towns and states is available. In addition to furnishing a basis of comparison, standard tests aid in the diagnosis of the work of the individual child, showing where he needs special attention. Our testing program in Easton during 1925 included the use of the following standard tests: Burgess' Scale for Measuring Ability in Silent Reading, grades 4 to 8; Monroe's Reasoning Test in Arithmetic, grades 4 to 8; Pressy and Richards' American History Test, grades 8 and 11; Ruch Cossman Biology Test, grade 10; Ruch Popenoe General Science Tests, grades 7 and 8; Powers' General Chemistry Test, grade 11; White Latin Tests, grades 9, 10, 11 and 12; Schorling Sanford Test in Plane Geometry, grade 10; Pressey Attainment Scale, grades 1, 2 and 3; Boston University Arithmetic tests, grades 5, 6 and 7. Space does not permit a detailed discussion of the results of these tests. In some our results were above standard; in others our results were lower than they should have been. In all cases these tests helped us to determine our standard in comparison with country-wide medians, as well as better to understand the individual and to diagnose his difficulties.

SOME SCHOOL NEEDS

In the School Report for 1924, Superintendent Wheeler presented a list of "What is most needed in Easton Schools." Two items in his list of eight have been realized, in whole or in part. The others will bear repetition.

1. The use of an assembly hall which is large enough to accommodate all Junior High or High School pupils.
2. A lunch room that will seat 200 students. In commenting

on our lunch room facilities, Principal Eugene Thrasher, Jr., of the High School reports as follows: "The lunch room facilities are decidedly inadequate. With some five hundred in the Senior and Junior High Schools, approximately 25 pupils are served daily. Dietitians maintain that a hot lunch is conducive to more efficient work. Few of our pupils are fortunate enough to obtain this hot lunch because of the proximity of their homes. The majority bring their lunches or visit the stores or lunchrooms. There has been considerable complaint of boys throwing rubbish on the streets or otherwise conducting themselves in a manner to bring discredit on the school. While we have done much to correct these conditions there will always be a certain amount of just criticism as long as the pupils are 'in school,' and on the streets at the same time. I would suggest that the school committee authorize a survey which would enable them to determine the feasibility of a lunch room."

3. A new Junior High School building.
4. A playground and athletic field in the vicinity of the high school building.
5. New scholarships.
6. A system of school savings.

IN CONCLUSION

Every superintendent is keenly aware that his efforts, to be productive of fruitful results, must be aided and upheld by the staff of workers under his direction. During the brief period that I have been serving as superintendent of schools I have felt that this condition has existed, and I wish to take this opportunity to express my appreciation of the helpful attitude which principals and teachers have shown. Recognition is made at this time of the wholesome support which parents and interested citizens have extended to the schools of Easton. Finally, the School Committee deserves my gratitude for advice and support.

Respectfully submitted,

GILBERT C. MANN.

January 27, 1926.
